

Projects		
Department	Project Title	Notes
Administration	Port Putnam	The Port Infrastructure Development Plan has been completed. Design and engineering for the new bulkhead are approaching 90 percent completion, and the permitting process is currently underway. The antique crane that long adorned the riverfront was recently removed with the assistance of local companies. Additionally, Port Putnam recently facilitated the waterborne transport of bridge components from Veritas Steel's Palatka facility to the Shands Bridge spanning the St. Johns River in Green Cove Springs. Progress toward the resumption of commercial cargo service at Port Putnam continues on a daily basis.
Dept. of Health	Mobile Dental Unit	Our mobile dental unit that provides school-based sealants will be out in the schools over the next couple of months. Dental sealants are the most effective way of preventing tooth decay, or cavities, in permanent molars, where more than 80% of decay occurs in the permanent teeth of children. The deep grooves and fissures of the molars allow decay to occur deep within the tooth structure where fluoride is less effective. Sealants are thin coatings applied to the tooth surface, which can help stop this decay from happening. This year we are addressing 1st and 2nd grades, along with 5th and 6th grades.
Parks & Recreation	Mary Wisham Park	Basketball courts have been resurfaced and new goals and nets has been completed.
Parks & Recreation	West Putnam Sports Complex	New roof and awnings are going to be installed on the concession stand and bathrooms. The existing metal awning will be put onto the dugouts on field 1 and 2.
Parks & Recreation	Francis Sports Complex	Field renovations by St. John's Turf Care are complete. Babe Ruth will be starting to play on them in February. Bid documents for the multipurpose building to house the new rest rooms and concession stand was issued yesterday, January 26th.
Parks & Recreation	Project Play	The splash pad sprayers and buckets have been fixed and powder coated. We are currently waiting on the solenoids and timing system to be checked out. The splash pad is also scheduled for new flooring and is expected to be complete by the end of March 2026.
Parks & Recreation	Flag Football	Flag football season will be kicking off in February. We have a total of 11 teams each consisting of 16 kids.
Parks & Recreation	First Aid	AED pads and battery replacements have been ordered and will be installed once they arrive. We have also been working on replenishing first AID kits at the Senior Centers.
Parks & Recreation	Bedenbaugh Park	The pickleball court is complete and waiting for the grand opening.
Planning and Development	Traffic Count	The 2025 Traffic Count Program is complete.
Public Works	Dirt to Pave 2023	This project is complete and is in the final closeout stage.
Public Works	Dirt to Pave 2024	Construction is underway.
Public Works	Dirt to Pave 2025	Design is 90% complete and will go out to bid in February 2026.
Public Works	CR 315 South Resurfacing Project - from SR 20 South to Marion County County Line	Construction will begin in February 2026.
Public Works	East Palatka Septic to Sewer Project Phase 4	Contract has been executed, construction is underway.
Public Works	San Mateo Water Extension Project	380 meters have been installed. 133 of those, the plumber has completed the install and the customers are being billed or in the process of being billed. Another 29 are contracted with a plumber. Additionally, another 16 just went out to bid.
Public Works	Nothern Putnam Drainage Project	Bids for Bid 26-04 were received on January 14, 2026 and are currently under review.
Public Works	Countywide Resurfacing - FY25	Construction is underway.
Public Works	Guardrail Repairs - FY25	Project is scheduled to be complete by the end of this month.
Public Works	Currie Road Lift Station Generator	Design is complete and the bid package is being compiled.
Public Works	Gilbert WWTF Efficiency Grant	Construction bids are due February 9th.
Public Works	Mobile Generators for Lift Stations	The grant request is under review.
Public Works	Bardin Bridge Repair	Hanson Professional Services is currently incorporating FDOT comments to complete design.
Public Works	Road Restriping - FY25	Final Punch list being addressed.
Public Works	Dunn's Creek Boat Ramp	Design is currently underway with Hanson Professional Services.
Public Works	HMGP Putnam County Blvd Lift Station Generator	Project is the final closeout stage.
Public Works	Gilbert WWTP expansion	Design proposals are in review.
Public Works	Palmetto Bluff Road	Design awarded to Tocol Engineering/Baxter Woodman.
