FY 2026-2027 Solid Waste Tipping Rate Information
Fees and Rules for Waste Disposal

Putnam County Landfill and Collection Centers

Assessed Residential Disposal:
Residents that have paid the Solid Waste Special Assessment may bring household garbage, horticultural trash (regular yard maintenance), and bulky waste (all items that are picked up curbside according to the Solid Waste Contract) to the County collection & disposal facilities at no additional charge. (See list of exempt wastes that will be charged) Proof of Residential assessment must be provided (tax bill, utility bill, or a Lease Agreement for renters) along with a valid Driver's License or photo ID to match the residential address.

Residents that have paid the Assessment may also dispose of 10 car & light truck tires per year, household hazardous waste, gas, and used motor oil at no charge. (5 gallon limit)

Landfill (except as above):
Residential customers will be charged $24.00 per ton for the disposal of waste with a $5.00 minimum charge. Commercial customers will be charged $38.00 per ton for the disposal of waste with a $5.00 minimum charge. Tires will be charged at $210.00 per ton. The weight and resulting fee will be determined by the landfill scale.

Collection Centers (except as above):
All customers will be charged by the cubic yard for waste disposal with a $5.00 minimum charge. The rates will be as follows:

	Residential	Commercial
Household Garbage-	$10.00 per cubic yard (No Fee for residents that pay the Solid Waste Assessment)	$15.00 per cubic yard
Horticultural Trash-	$10.00 per cubic yard	$15.00 per cubic yard
Construction Debris-	$10.00 per cubic yard	$15.00 per cubic yard

Tires will be charged at the rate of $5.00 per car & light truck tire, $10.00 per commercial (semi) truck tire, and $15.00 per heavy equipment off road tire. Tires brought in with a rim will incur an additional $10.00 fee for rim removal.

ALL COMMERCIAL VEHICLES are charged and any known commercial loads (whether commercial vehicle or private vehicle) are charged as well, regardless of type of debris.

CONSTRUCTION AND DEMOLITION DEBRIS is not covered in the Assessment; therefore, is charged to the resident (after allowance has been met at Central Landfill ONLY).

RESIDENTIAL YARD WASTE greater than 4" in diameter and longer than 6' in length is not covered in the Assessment; therefore, is charged to the resident (after allowance has been met at Central Landfill ONLY).

ANNUAL ALLOWANCE FOR ASSESSED RESIDENTS FOR NON-ASSESSED WASTE IS AS FOLLOWS:

Construction and Demolition Debris (C&D)	3,000 lbs*
Yard Waste	5,000 lbs*

*CENTRAL LANDFILL ONLY

EXEMPT WASTES AND RECOVERED MATERIALS

The following types of Exempt Waste are not subject to the Contractor's exclusive franchise under this Agreement. These Exempt Wastes may be collected by the owner or occupant of the Improved Property where the Exempt Waste is generated, or by their agent, and taken to any Solid Waste Management Facility or other facility that is licensed to receive such materials. Exempt wastes will be charged at any of the landfill facilities.

(a) Land Clearing Debris.

(b) Yard Waste generated by a Commercial Lawn Care Company or plant nursery, or residential yard waste greater than six (6) feet in length and four (4) inches in diameter.

(c) Roofing materials generated, collected, and transported by a roofing company.

(d) Construction and Demolition Debris "C&D" means discarded materials generally considered to be not water soluble and non-hazardous in nature, including but not limited to steel, glass, brick, concrete, asphalt material, pipe, gypsum wallboard, and lumber, from the construction or destruction of a structure as part of a construction or demolition project or from the renovation of a structure, including such debris from construction of structures at a site remote from the construction or demolition project site. The term includes rocks, soils, tree remains, trees, and other vegetative matter that normally results from land clearing or land development operations for a construction project; clean cardboard, paper, plastic, wood, and metal scraps from a construction project; except as provided in Section 403.707(9)(j), F.S., yard trash and unpainted, non-treated wood scraps from sources other than construction or demolition projects; scrap from manufacturing facilities that is the type of material generally used in construction projects and that would meet the definition of construction and demolition debris if it were generated as part of a construction or demolition project, including debris from the construction of manufactured homes and scrap shingles, wallboard, siding concrete, and similar materials from industrial or commercial facilities and de minimis amounts of other non-hazardous wastes that are generated at construction or demolition projects, provided such amounts are consistent with best management practices of the construction and demolition industries.

(e) Recovered Materials that are generated and Source Separated on Commercial Property.

(f) Excavated fill and earthen material.

(g) Solid Waste and by-products generated from an industrial process.

(h) Liquid, semisolid, or contained gaseous material resulting from domestic, industrial, commercial, mining, agricultural, or governmental operations.

(i) Trash, debris, animal bedding, animal wastes, and other materials resulting from farming, equestrian, or agricultural operations.

(j) Boats, boat motors, and boat trailers.

(k) Disaster Debris.

(l) Sludge.

(m) Materials and wastes similar to those listed above, when designated by the Administrator.
